

Why Should You Join?

Here's what your colleagues say...

"AAPT makes me a better teacher, but it's more complicated than that. AAPT provides a forum not only for improvement but for questioning our practice. Attending an AAPT meeting inspired two other teachers and myself to start EnergyTeachers.org. I go back to AAPT every year for new inspiration."

- Shawn Reeves, EnergyTeachers.org

"I joined AAPT my first year of teaching. Whether through workshops or other people that I've met, I've grown and grown. Now I'm lucky enough to be in charge of the High School Physics Photo Contest. I think this is a great way for AAPT to share how high schools and students look at physics."

- Tommi Holsenbeck, Alabama State University

Mission Statement

AAPT is a professional membership association of physics teachers and faculty solely dedicated to enhancing the understanding and appreciation of physics through teaching.

American Association of Physics Teachers

Enhancing the Understanding and Appreciation
of Physics Through Teaching.

Join at aapt.org

Who are we?

We are a community of high school physics teachers and university faculty. Our members play a critical role in shaping physics education policy and standards nationally.

What are some of the benefits of joining?

Professional Development

- Learn from thought leaders during plenaries, symposiums, and sessions during annual meetings
- Physics Teaching Resource Agent institutes and workshops
- Monthly webinars on stimulating topics and resources

Resources

- Lessons from ThePhysicsFront.org
- Pedagogy and assessments from PhysPort.org
- Interactive simulations and more from ComPADRE.org

eMentoring

- Become a mentor or find a mentor at ementoring.aapt.org

Community

- Join a committee or topical group
- Follow us on social media to interact with fellow teachers
- Network with thousands of colleagues at Meetings

Student Programs

Engage your students in the High School Physics Photo Contest, challenge them in competitions with the PhysicsBowl Exam and compete for the U.S. Physics Team!

Publications

- Teaching ideas from The Physics Teacher and the American Journal of Physics
- Stay up to date on advancements in physics with AIP's Physics Today

Awards/Funding

- Barbara Lotze Scholarship for Future Physics Teachers
- High School Teacher Grants
- Paul W. Zitzewitz Award for Excellence in Pre-College Teaching.
- Funding opportunities such as the Fuller Fund and Hashim A. Yamani membership grants for international members
