1	Didactics and teaching methodologies	Jun 5, 2011 8:18 AM
2	no change. just less fees for retirees.	Jun 5, 2011 6:46 AM
3	Good source of information.	Jun 3, 2011 10:19 PM
4	To update me on latest creations in physics. To create avenues for interractive activities with other members around the world.	May 29, 2011 1:23 AM
5	Serve as a "one-stop" location for teaching ideas, best practices, research, etc.	May 28, 2011 9:01 AM
6	Provide professional development and ideas or lessons for activities in the classroom.	May 22, 2011 4:53 AM
7	Low cost so I could join	May 18, 2011 12:12 PM
8	Hard to tell. I cannot think of a service that AAPT could offer that I would need that I do not already have elsewhere.	May 17, 2011 1:05 PM
9	Classroom activities (love the string-and-sticky tape series).	May 17, 2011 9:12 AM
10	Provide channels for discussing physics-education issues.	May 16, 2011 11:13 AM

112	I'm mostly just too buried to make heavy use of AAPT resources - in addition to AP Physics B and C, I also teach AP Chemistry, an honors geology course, AP Statistics, and AP Calculus some years. Don't have time for a great deal on the side. I mostly appreciate that AAPT runs the Physics Olympiad competition, which is a good experience for my students and a source of great problems. All I could really hope for is a greater database of published problems, possibly sorted by topic.	May 4, 2011 9:03 AM

I left the AAPT because it did not address the problem of declining physics enrolments. This problem is central to our professional life. 155	Am no educator. My lay view is whatever AAPT can do to make Physics interesting and understandable w/o dumbing down should benefit all. Encouraging tinkering thru Physics should benefit us as a nation. As recently as the '40's, more of us lived in small towns, cities, or on farms. Even those in cities made balsa plane models that flew until they crashed. Cars were easier to fix. Kids had Chemistry sets and were not glued to TV screens watching Dreck. Now we have McDonald's and electronic games. Progress?	May 4, 2011 7:36 AM

63	The idea of the organization has appeal, but I don't know what good it would do to invest time into participating in the organization.	May 4, 2011 9:29 AM
64	I suspect publishers in the AAPT are like the camel's nose in the tent. It does not bode well for the quality of the texts. Certainly articles in Journal should be identified as coming from AAPT teacher members or from AAPT publisher members. I'm Howard P. Lyon. My experiences with Prentice Hall and Holt are well-documented and easily found. Talk to Hubisz, Review materials from Mario lona, Study Richard Feynman's experience with publishers. 76	You should be more like APS. Why are there only two meetings a year and in very exclusive places? I live in Idaho and have never seen a meeting planned near to me. I would propose seasonal meetings (4 a year) and "short" meetings that are scheduled in between. These can be planned by unpaid volunteers from within the association. 78	as a student i donot have any comments, but feel that if one is given a chance to discuss modern physics concepts, at a graduate level be it be quantum mechanics or general relativity, it would be nice. i mean to say that, can u please put in ur website some kind o discussion forums, where eminent scientists of corresponding fields should feel free to answer them to the accurate possible. it would boost the ideas to the young mind very easily. rather then depending upon study material heavily, lacking interest. i hope u got my view point. thanks. Whatever encourages children to manipulate matter, to note changes, and to make conclusions on how nature works, instead of just watching a movie or pressing buttons, interests me. Ideally measuring changes would interest some children.	May 4, 2011 7:43 A
)1	Parts of this survey were hard to respond to, such as how much time I would spend supporting the physics community if I were to become an AAPT member.	May 4, 2011 7:41 A
)2	Compact weekly news update.	May 4, 2011 7:40 A
93	I never joined as a young teacher, because the cost was too high, but as I get older, I keep telling myself that I need to join as I can now afford it.	May 4, 2011 7:28 A
94	Too much emphasis on teaching introductory physics. Little emphasis on teaching upper division or graduate level courses.	May 4, 2011 7:27 A
95	I will try to remember to pay my dues (the prohibitive cost causes me to forget easily). I like recieving The Physics Teacher and other notifications from AAPT. I honesty didn't realize how many resources were available online. This survey has raised my awareness of aapt.org. I will try to check out the website more often during the next year.	May 4, 2011 7:23 A
96	I am moderately active in our State affiliate of AAPT, and very active in AGU (for both research and education).	May 3, 2011 1:04 F
7	Why are parts of this survey written from the perspective that implies that the survey taker is not a member to AAPT?	Apr 28, 2011 8:18 /
8	I did participate in the 2001 Institute for New Physics Teachers at Buffalo State, which was the best professional development I have ever attended. I am on the listserv since then, but Buffalo is too far to go to attend a monthly meeting. I have often thought of joining in order to subscribe to The Physics Teacher.	Apr 27, 2011 9:13
99	AAPT needs to decide on its identity. Does it exist to serve active teachers who work with the > 200K students who take physics every year, or does it serve the needs to folks who want to present research papers and posters on their PER doctoral research. AAPT national meetings 20 years ago served working teachers. I am a happy member of my local section and enjoy section meetings where folks come together to share their craft with demonstrations and great ideas.	Apr 25, 2011 11:31
00	I enjoyed my AAPT membership when I was teaching and will again become a member when I teach again.	Apr 25, 2011 11:28
01	I would join at a reduced rate, possibly one without "The Physics Teacher" subscription. I currently get C&E News, and Science News. I've no time for a third journal.	Apr 24, 2011 11:11
02	Get involved in a lms like moodle to distribute curriculum new teachers could really use. Publishers stuff is not very good and you can't Always modify it	Apr 23, 2011 8:51 I
03	I like the meetings I attend twice a year.	Apr 23, 2011 4:52 I
04	I didn't even know there was an AAPT store. I am sorry to say that I am very unfamiliar with pretty much all of AAPT's activities and events, except for the twice-annual meetings of my local chapter.	Apr 23, 2011 11:30

106	None at this time.	Apr 21, 2011 4:52 PM
107	I'll be joining again shortly.	Apr 21, 2011 4:29 PM

109	No	Apr 21, 2011 9:51 AM
110	I think the most valuable aspect to AAPT is the local and national meetings where one may interact with other teachers, publishers, and equipment vendors	Apr 20, 2011 7:41 PM
111	It would be interesting to know the concerns of the physics teachers in U.S. high schools. What are the issues? What is going well, and what is going not so well.	Apr 20, 2011 3:17 PM
