**Page 8, Q3. What is the most important thing that AAPT could offer to better meet your needs as physics education professional?**

112	I'm mostly just too buried to make heavy use of AAPT resources - in addition to AP Physics B and C, I also teach AP Chemistry, an honors geology course, AP Statistics, and AP Calculus some years. Don't have time for a great deal on the side. I mostly appreciate that AAPT runs the Physics Olympiad competition, which is a good experience for my students and a source of great problems. All I could really hope for is a greater database of published problems, possibly sorted by topic.	May 4, 2011 9:03 AM

**Page 8, Q3. What is the most important thing that AAPT could offer to better meet your needs as physics education professional?**

133	I left the AAPT because it did not address the problem of declining physics enrolments. This problem is central to our professional life. But the only sentiments in the physics community were 'Physics is intrinsically good and good students will do it.' True, but unhelpful.	May 4, 2011 8:12 AM

**Page 8, Q3. What is the most important thing that AAPT could offer to better meet your needs as physics education professional?**

155	Am no educator. My lay view is whatever AAPT can do to make Physics interesting and understandable w/o dumbing down should benefit all. Encouraging tinkering thru Physics should benefit us as a nation. As recently as the '40's, more of us lived in small towns, cities, or on farms. Even those in cities made balsa plane models that flew until they crashed. Cars were easier to fix. Kids had Chemistry sets and were not glued to TV screens watching Dreck. Now we have McDonald's and electronic games. Progress?	May 4, 2011 7:36 AM

10	the joint AAS / AAPT meetings were a good idea in theory, but the one I attended turned into a major fiasco (the convention center kicked us out with half a day left in the meeting), and so it seemed to me that the communication between the organizations was not very strong.	May 9, 2011 11:23 AM
11	No	May 9, 2011 10:45 AM
12	The Physics Yeacher to which we subscribe is a very rich source of materials and ideas for teaching Physics. This my main access to the resources of the AAPT. Would you open AAPT to teachers of other countries like the Philippines, as NGM does?	May 8, 2011 2:58 AM
13	not yet	May 7, 2011 11:09 PM

24	Please give me a chance and accept my paper on Dimensional theory. It is really useful, it only needs an experiment to be performed. Please send me a direct link. thank you	May 5, 2011 8:17 AM
25	i am Pakistani.	May 5, 2011 7:10 AM
26	Am doing my PhD. in Solapur University. I am not so rich so I don't have money for membership. But I want to be a member of AAPT. Membership must be free for poor candidates who are from backward regions. I am author of one international research paper. If I get membership then it is very useful for me. Thanks for reading my comments.	May 5, 2011 6:46 AM

46	I would like to join since physics and Physics First are my primary teaching responsibilities, but the cost (on top of membership in NSTA) is a lot. I have gotten a lot of benefit from my membership in SLAPT.	May 4, 2011 2:13 PM
47	looking forward to being a full time member, but will like to know more about the benefit a member from Europe will have and if physics teacher are considered a skilled profession for migration purpose in case one will like to gain some teaching experience in American schools	May 4, 2011 2:11 PM
48	As soon as possible I would like to became a member of AAPT	May 4, 2011 2:05 PM
49	I submitted a paper to TPT. The editors were very professional and helpful.	May 4, 2011 1:53 PM
50	Many years ago I tried to publish something in your journal. It was rejected outright. Later an article appeared somewhat along the same lines. I was somewhat miffed even though the article was well done and better than my attempt.	May 4, 2011 1:03 PM

60	Get a better Local Chapter contact list! Get more involved in General Science Education programs at universities - that's where most of the future High School physics teachers are coming from, who stand to benefit the most from membership.	May 4, 2011 9:47 AM
61	I signed up but received no confirmation nor newsletter etc. being an overloaded 2 year college teacher, I have no time to chase this down.	May 4, 2011 9:44 AM
62	our school has no funding for memberships, workshops, items, travel etc after 10 years of working for the same school and only 4 years that I did not take a pay cut I can not afford anything extra. We have not been able to go to any conferences or work shops that we did not pay for ourselves	May 4, 2011 9:33 AM
63	The idea of the organization has appeal, but I don't know what good it would do to invest time into participating in the organization.	May 4, 2011 9:29 AM
64	I suspect publishers in the AAPT are like the camel's nose in the tent. It does not bode well for the quality of the texts. Certainly articles in Journal should be identified as coming from AAPT teacher members or from AAPT publisher members. I'm Howard P. Lyon. My experiences with Prentice Hall and Holt are well-documented and easily found. Talk to Hubisz, Review materials from Mario Iona, Study Richard Feynman's experience with publishers.	May 4, 2011 9:23 AM
65	Physics Olympiad is great! It would be nice if the semifinalists got feedback a little more quickly. I have one student who has been anxiously awaiting news and refreshing the website daily for months. We surmise that since he has heard nothing, he probably didn't make the Physics Team cut, but it seems like the news gets awfully delayed.	May 4, 2011 9:05 AM
66	As this is an association in America (USA) and I'm from Tanzania I would like to suggest that you offer membership to all Tanzania Physics teacher. I know it will help us in teaching physics more efficiently. if it is not possible for all teachers may few whom you request me to choose for you. I like Physics and I like AAPT	May 4, 2011 8:58 AM

72	As member (fellow) of APS and still involved in research I get "most" of the information I need for my research and teaching by attending the March meeting and the Northwest Section of APS meetings. Most of us never have time to go to multiple meetings or get additional resources, no matter how valuable.	May 4, 2011 8:52 AM
73	Congratulation for your effort	May 4, 2011 8:45 AM
74	I'm interested in joining, but have figured I don't qualify.	May 4, 2011 8:44 AM

**Page 12, Q1. Are there any additional comments you would like to share about your experience with AAPT?**

75	In my 35 yr career, I attended one national and several regional AAPT meetings - but they have not had much astronomy content (for the regional ones, I was an invited speaker).	May 4, 2011 8:42 AM
76	You should be more like APS. Why are there only two meetings a year and in very exclusive places? I live in Idaho and have never seen a meeting planned near to me. I would propose seasonal meetings (4 a year) and "short" meetings that are scheduled in between. These can be planned by unpaid volunteers from within the association. Simply provide saltines and soda water and watch the help roll in by the hundreds!	May 4, 2011 8:40 AM
77	No	May 4, 2011 8:29 AM
78	as a student i donot have any comments , but feel that if one is given a chance to discuss modern physics concepts, at a graduate level be it be quantum mechanics or general relativity, it would be nice. i mean to say that , can u please put in ur website some kind o discussion forums, where eminent scientists of corresponding fields should feel free to answer them to the accurate possible. it would boost the ideas to the young mind very easily. rather then depending upon study material heavily, lacking interest. i hope u got my view point. thanks.	May 4, 2011 8:22 AM
79	Everything you are doing is great, but if the small 2 year college and 4 year university professors can't get grants to do student lead research our programs will just eventually die off due to lack of interest.	May 4, 2011 8:16 AM
80	I would love to join AAPT but on my teachers salary, it's impossible.	May 4, 2011 8:08 AM

82	no	May 4, 2011 8:07 AM
83	I am the high school representative for our SACS AAPT section. I tried to go to the summer training sponsored by AAPT, but was told that I wasn't selected. I don't know how to get other teachers involved. I've mostly interacted with PACE and international teachers. I don't have much to offer them other than my own personal materials.I am a bit frustrated with this task at the moment.	May 4, 2011 8:05 AM
84	Organization is nearly invisible. I took students to physics day at Busch Gardens but apparently AAPT is not part of that opportunity	May 4, 2011 8:04 AM

89	The New Faculty Workshop was really helpful (in some aspects). I am struggling to generate/invent appropriate assessment tools (the FCI is not appropriate) for my students- but the AAPT gave me the knowledge to even think about assessment/learning outcomes/etc, which I greatly appreciate. 90	I am no teacher. So you likely want to survey others. Whatever encourages children to manipulate matter, to note changes, and to make conclusions on how nature works, instead of just watching a movie or pressing buttons, interests me. Ideally measuring changes would interest some children.	May 4, 2011 7:43 AM
91	Parts of this survey were hard to respond to, such as how much time I would spend supporting the physics community if I were to become an AAPT member.	May 4, 2011 7:41 AM
92	Compact weekly news update.	May 4, 2011 7:40 AM
93	I never joined as a young teacher, because the cost was too high, but as I get older, I keep telling myself that I need to join as I can now afford it.	May 4, 2011 7:28 AM
94	Too much emphasis on teaching introductory physics. Little emphasis on teaching upper division or graduate level courses.	May 4, 2011 7:27 AM
95	I will try to remember to pay my dues (the prohibitive cost causes me to forget easily). I like receiving The Physics Teacher and other notifications from AAPT. I honestly didn't realize how many resources were available online. This survey has raised my awareness of aapt.org. I will try to check out the website more often during the next year.	May 4, 2011 7:23 AM
96	I am moderately active in our State affiliate of AAPT, and very active in AGU (for both research and education).	May 3, 2011 1:04 PM
97	Why are parts of this survey written from the perspective that implies that the survey taker is not a member to AAPT?	Apr 28, 2011 8:18 AM
98	I did participate in the 2001 Institute for New Physics Teachers at Buffalo State, which was the best professional development I have ever attended. I am on the listserv since then, but Buffalo is too far to go to attend a monthly meeting. I have often thought of joining in order to subscribe to The Physics Teacher.	Apr 27, 2011 9:13 AM
99	AAPT needs to decide on its identity. Does it exist to serve active teachers who work with the > 200K students who take physics every year, or does it serve the needs to folks who want to present research papers and posters on their PER doctoral research. AAPT national meetings 20 years ago served working teachers. I am a happy member of my local section and enjoy section meetings where folks come together to share their craft with demonstrations and great ideas.	Apr 25, 2011 11:31 AM
100	I enjoyed my AAPT membership when I was teaching and will again become a member when I teach again.	Apr 25, 2011 11:28 AM
101	I would join at a reduced rate, possibly one without "The Physics Teacher" subscription. I currently get C&E News, and Science News. I've no time for a third journal.	Apr 24, 2011 11:11 AM
102	Get involved in a lms like moodle to distribute curriculum new teachers could really use. Publishers stuff is not very good and you can't Always modify it	Apr 23, 2011 8:51 PM
103	I like the meetings I attend twice a year.	Apr 23, 2011 4:52 PM
104	I didn't even know there was an AAPT store. I am sorry to say that I am very unfamiliar with pretty much all of AAPT's activities and events, except for the twice-annual meetings of my local chapter.	Apr 23, 2011 11:30 AM

109	No	Apr 21, 2011 9:51 AM
110	I think the most valuable aspect to AAPT is the local and national meetings where one may interact with other teachers, publishers, and equipment vendors	Apr 20, 2011 7:41 PM
111	It would be interesting to know the concerns of the physics teachers in U.S. high schools. What are the issues? What is going well, and what is going not so well.	Apr 20, 2011 3:17 PM
