American Journal of Physics and The Physics Teacher Online

The AJP Online and TPT Online sites feature user-friendly and visually appealing home pages as well as additional functionality on the abstract pages. 100% of the print subscribers to either journal have access to the online version of both journals.

The new platform provides a landing page that is cleaner and more intuitively designed, with advertising visible on most pages. A comprehensive set of article tools is provided, including functions to download article data in a variety of citation styles and formats, to share the article with colleagues, to be alerted when an erratum is posted, to capture a preformatted, persistent link to embed in scientific blog or personal web site, and an article view optimized for personal handheld devices. These improvements are expected to drive increased traffic to already heavily-viewed pages.

Opportunities are available for leaderboards, skyscrapers, and boomboxes on both online publications.

Journal Article Download Cover Page

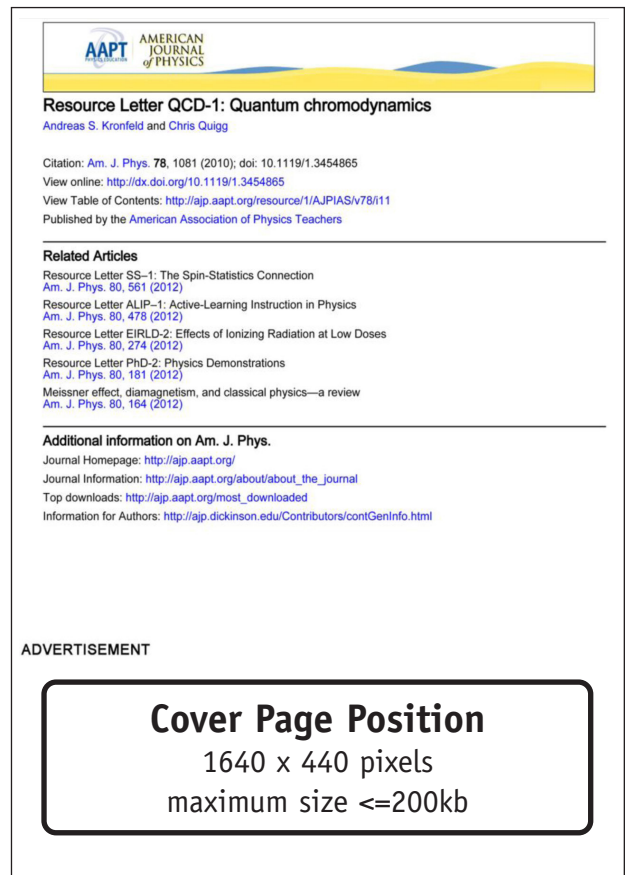

Physics teachers and students spend about 40 minutes each week reading journal articles, which they typically download in PDF format. When you add up all of these downloads, you get more than 30,000 PDF downloads each month.

A cover page is created for each downloaded PDF article. This new cover page offers advertisers an opportunity to expand their advertising reach with an exclusive banner on the lower section of each article pdf cover page—with a clickable link and measurable click-throughs.

This ideal advertising medium:

- appears on the cover page of the downloaded article.
- is larger than other online ads.
- is a fraction of typical print cost-per-thousand (CPMs).
- is highly targeted to your market.
- is a hybrid between print and online with fantastic impression and click rates that can be tracked.

Opportunities are now available for both *The Physics Teacher* and *American Journal of Physics* article downloads. Ads (1640 x 440 pixels, jpeg format) are run on a weekly basis and are first come, first served.

The screenshot shows the top portion of an article cover page. At the top is the AAPT logo and the text 'AMERICAN JOURNAL of PHYSICS'. Below this is a yellow and blue decorative wave. The main title is 'Resource Letter QCD-1: Quantum chromodynamics' by Andreas S. Kronfeld and Chris Quigg. Citation information includes 'Am. J. Phys. 78, 1081 (2010); doi: 10.1119/1.3454865'. A list of 'Related Articles' follows, including 'Resource Letter SS-1: The Spin-Statistics Connection', 'Resource Letter ALIP-1: Active-Learning Instruction in Physics', 'Resource Letter EIRLD-2: Effects of Ionizing Radiation at Low Doses', 'Resource Letter PhD-2: Physics Demonstrations', and 'Meissner effect, diamagnetism, and classical physics—a review'. 'Additional information on Am. J. Phys.' is provided at the bottom, including the journal homepage, information page, top downloads, and author information.
