

# Volume 3: Heat and Conservation of Energy, Student Materials

<b>Contents</b>	<b>Page No.</b>
I. Student Investigations/Activities	
<i>Investigation H1: Melting Ice</i>	1
Activity H1.1: How long can you keep an ice cube?	2
Activity H1.2: How quickly can you melt an ice cube?	3-4
Activity H1.3: Ice Cube Melting II	5-6
<i>Investigation H2: Telling Hot from Cold</i>	7
Activity H2.1: Is it hot or is it cold?	8
Activity H2.2: Can you tell hot from cold?	9-10
<i>Investigation H3: Conservation of Energy Model Development</i>	11
Activity H3.1: Can you predict the temperature?	12-13
Activity H3.2: Charting Method for Mixes	14
Activity H3.3: More Mixing of Like Substances	15
Activity H3.4: The Water Equivalent	16-18
Activity H3.5: Comparison of Materials	19
Activity H3.6: Flame Temperatures	20
<i>Investigation H4: Change of State</i>	21
Activity H4.1: Freezing and Melting	22-23
Activity H4.2: Freezing Water	24
Activity H4.3: Energy to Melt Ice	25
Activity H4.4: Condensing Steam	26-27
<i>Investigation H5: Other Forms of Energy</i>	28
Activity H5.1: What are some familiar forms of energy?	29
Activity H5.2: Introduction of the Energy of Motion and Position	30-31
Activity H5.3: Systems and Energy of Position and Motion	32-33
Activity H5.4: How general is the hypothesis?	34
<i>Investigation H6: Disorder</i>	35
Activity H6.1: Disorder	36
Activity H6.2: Disorderly Activities	37-38
Activity H6.3: Relationship between Increasing Disorder and Probability I	39
Activity H6.4: Relationship between Increasing Disorder and Probability II	40
Activity H6.5: Disorder and the Environment	41
II. Focus on Science	42
Focus on Science H1.1: Melting and Energy Exchange	43
Focus on Science H2.1: Sensing Temperature	44
Focus on Science H3.1: Temperature and Heat	45-46

Focus on Science H3.2: Equilibration Temperatures	47
Focus on Science H4.1: Winter Roads and Ice Cream Making	48
Focus on Science H4.3: Latent Heat of Vaporization and Fusion	50
Focus on Science H5.1: Energy Storage and Transformation	51
Focus on Science H6.1: Disorder and the Transfer of Heat Energy	52
III. Homework	53
Homework H1.1: An Olympic Event	54
Homework H2.1: Hot and Cold	55
Homework H3.1: Mixtures and Specific Heat	56
Homework H4.1: Change of State	58-59
Homework H5.1: Changes in Energy	60
